61-TIME DIFFERENCE should be 3 in Turkey. The time difference of the destination country will be entered.

62-SUMMER TIME CLOSED In our country, it will remain closed as long as the time differences do not change.

63-WIFI MODE You can turn it ON or OFF with the up and down buttons. To connect with WIFI, you must download the **TUYA SMART APP** from **GOOGLE PLAY STORE** or **APP STORE** and create an account. Then we turn on the WIFI mode from our button device. Our phone must also be open. When we enter the TUYA SMART application, **DEVICES TO BE ADDED 1 WARNING** comes directly to our screen. When we say add with **ADD**, we enter the existing WIFI name and password, say next, and wait for our device to connect, then we add our device by clicking on the completed text.

Then, we can share our device with other people by clicking the pencil sign in the upper right corner of the screen. When we turn the WIFI module off and on, the device in the TUYA SMART application will be deleted. Re-introduction is required.

In places where there is no wifi modem, we open the mobile access point on our mobile phone to share and follow the wifi instructions.

Bluetooth feature is available in our device. In order to benefit from this feature, we can operate our device by turning on our phone's location, Bluetooth and mobile internet. While a person is connected to Bluetooth, other people cannot operate.

The effective range of Bluetooth is **8-10 meters**. It is recommended that you perform all Bluetooth operations while keeping your phone within **8-10 meters** of other Bluetooth devices.

(Our panels are guaranteed against workmanship and assembly faults for 2 years. (Lightning, high voltage & application faults are not covered by the warranty.)

(PLEASE NOTE THAT ELECTRONIC CARDS HAVE HIGH VOLTAGE DO NOT CONTACT ANYWHERE WITH BREAK HANDS.
